

LOUVAIN SCHOOL OF MANAGEMENT

CEMS COURSES TERM 1 ACADEMIC YEAR 2010-2011

Please find hereunder the list of courses offered to CEMS students at the Louvain School of Management (LSM), for Term 1 of academic year 2010-2011.

Note that the CEMS guidelines drive us to limit the number of electives so as to avoid the dispersion of CEMS students during the semester. To compensate for this reduced choice, we have selected courses pertaining to a large array of topics, with a special emphasis on courses offered by our various centres of excellence. We have also tried to keep a good balance between courses taught in English and in French.

From a practical point of view, please keep in mind that the course schedule is not completely finalized yet. A few adjustments may be made that may hinder some combination of courses. Hopefully, such adjustments will be very limited (if any) and we already apologize should this lead you to revise some of your initial choices. At any rate, we will send you the final schedule as soon as it is available.
