

CEMS Club Vienna

The Cems Club Vienna is the student Club of the CEMS Master Program - all CEMS students at WU and also all incoming CEMS students are welcome to join the club. The CEMS Club Vienna (CCV) works for and with the students in three areas: first, to organize events with corporate partners - second, to organize social events and third, to raise awareness for the CEMS program.

Spring Semester 2008 - What events are planned?

The CCV is one of the most active student clubs in the CEMS network with the most organized events - and this semester will be no exception. Several events you may look forward to are:

The Snow Days

We are planning a skiing trip together with the CEMS club St.Gallen from the 13.03-16.03. 2008 on a glacier in Austria.

Mr. and Miss CEMS at L'Oréal

As a regular event in the spring semester, this contest is organized together with our corporate partner L'Oréal. This is not a beauty contest in the ordinary sense - amongst others, participants have to show real commitment to selling beauty products.

The Reuters Ironman

Also a regular event in the spring semester, the CCV heads to the Austrian mountains together

to try out rafting, kayaking and mountain climbing for an entire weekend.

In addition, there will be many more events such as Sushi cooking workshops, an Assessment Centre simulation with Bain and Co. and many more.

CEMS Humanitarian Project

This year all European CEMS clubs have decided to join forces for a humanitarian project. After careful consideration the CEMS clubs have decided to participate in the "build a school program" created by UNICEF. The aim of the program is to build and run a school in Sub-Saharan Africa. Every CEMS club has pledged to collect 10.000 euros by November 2008 to build a school most probably in Zimbabwe and to thus enable underprivileged children to visit a school on a regular basis. Currently, we are brain storming on how we want to tackle this challenge. As soon as we know more details, we will post them in the WUaktuell, as we want all WU students to be involved in this initiative.

Nina Poell, Elisabeth Resch

And now here is what one of our CEMS students has to say about his exchange semester abroad!

Exchange Semester at ESADE

An exchange semester at a world-class university, in a city by the Mediterranean Sea with a mild climate and long beaches with fine art, great food and Europe's best nightlife - 'impossible', you think? Far from it! This is Barcelona, a dream come true.

My last semester at ESADE Business School was the classical kursiv: time of my life. A time full of bold experiences, academic excellence and spectacular trips. A road paved with genuinely great people from all over Europe who became true friends.

I admired the genius of Gaudí in its immense beauty at Parc Güell and La Sagrada Família, got stunned by divine soccer players such as Messi and Ronaldinho at Camp Nou and plunged into the overwhelmingly vast and diverse nightlife. I ate delicious tapas, got a nice tan at the beach and strolled along Passeig de Gràcia. All while I got a first-class education by dedicated professors and guest lecturers. Most importantly, yet, I learned for life.

The deadline to apply for the CEMS program is the 22nd of January. Visit www.wu-wien.ac.at/cems for more information.

APPLY NOW!!!
